

Financial Assistance For Workers

MSD has a new team focused on assisting New Zealanders while they're working. By being involved early, we aim to reduce the number of people falling into hardship, and those who may be struggling due to reduced work hours or working less hours due to personal reasons.

Those in work could be eligible for the following assistance:

- An Accommodation Supplement
- Temporary Additional Support
- Upskilling Opportunities
- Food Grants and other one-off assistance

To access an eligibility check,
Workers can scan this QR Code using their phone's camera to access the form:

We will contact them directly to have a confidential discussion.

To know more about this service and everything else we can offer your business, contact:
